Accelerate Your Earning Potential & Career Opportunities
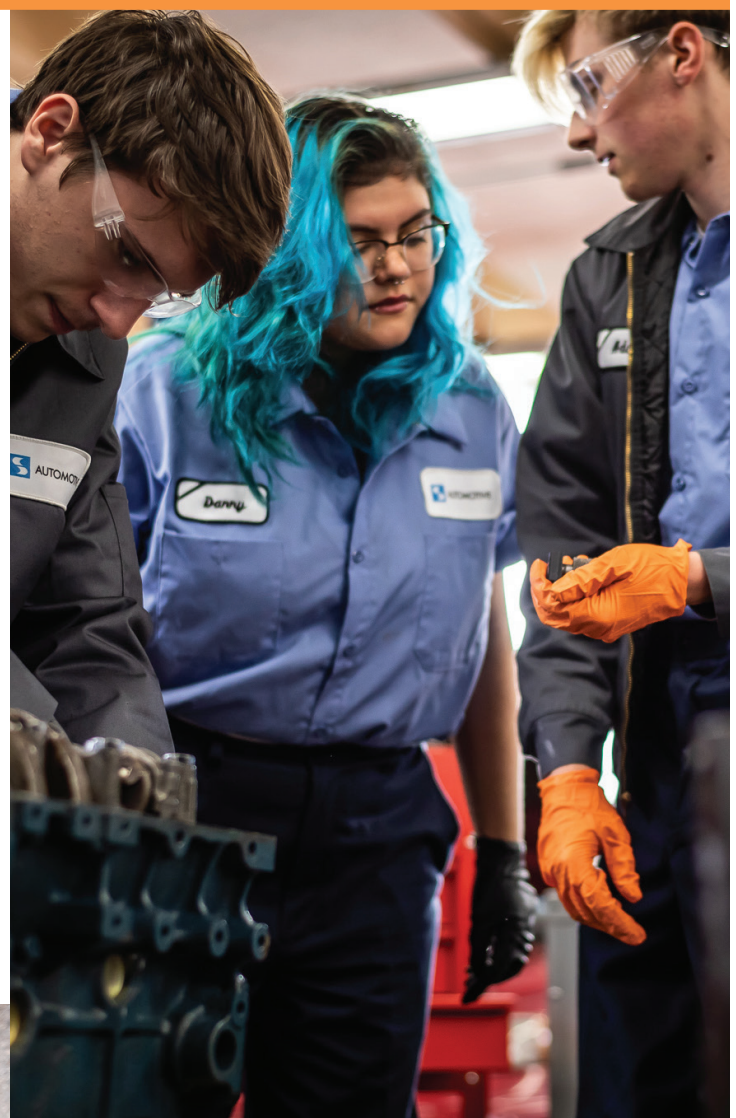

Program Overview `ASE`

South's NATEF/ASE certified Automotive Technology program provides hands-on training in all aspects of automotive repair. Students in this program learn to combine mechanical, electrical, math and problem-solving skills to maintain, diagnose and repair a variety of engines and automobiles.

Learn how to use the latest industry tools, equipment and technology in South's hands-on, real-world shop environment, taught by dedicated instructors with years of automotive industry experience.
