

Work Study Job: Chemistry and Physics Laboratory Assistant

Job Title:	Student Worker/Lab Assistant	Department:	Academic Programs
Hourly Rate:	\$19.97	Supervisor:	Ron Theofelis

Job Description

Role and Responsibilities

The Hourly Assistant will be required to perform duties as assigned and directed by the Supervisory Lab Technician of Chemistry and Physics. Those duties will include laboratory maintenance, lab exercise set-up and break-down, glassware maintenance, preparing solutions, and may include staffing of Open Labs, which entails providing access to study materials and equipment in study hall.

Educational Benefits

This position will provide exposure to many facets of lab operations, enriching the student's knowledge by the application of scientific concepts through real-world work experience.

Preferred Skills

No experience necessary. However, each applicant must have completed the FAFSA application for the current academic year and must qualify for financial aid.
