

Career & Technical Education Teacher Certification Program at SOUTH

CTE Certification Course of Study for Business & Industry Route

Initial Course to Begin Program

- Introduction to Career and Technical Teacher Education

Fundamental Teaching Courses

- CTE Organization and Curriculum Design
- Teaching Strategies
- Classroom Management

Experienced certificated teachers may be able to waive these three classes.

Core CTE Teaching Courses

(Critical courses for initial CTE certification)

- CTE History and Philosophy
- CTE Student and Personal Leadership Development
- Advanced CTE Strategies
- Legal Issues: Rights and Responsibilities
- CTE Classroom Assessment & Evaluation
- Integrating Technology in the CTE Classroom
- Program Development: Implementing CTE Standards

Experienced certificated teachers take Program Development in lieu of these two courses.

Culminating Course

- Practicum/Field Study (*Demonstration of CTE Competencies in the classroom*)

Optional Course & Certification

(additional certification from OSPI and specialty area certification in Career Choices)

- Work-Based Learning Coordination Techniques (*optional, highly recommended*)
