

South's **Bachelor of Applied Science (BAS) in Hospitality Management** provides students with the knowledge, skills, and tools to leverage their associate degree in Accounting, Culinary Arts, or other related areas of study. Management-level positions in the hospitality industry require professionalism and skills not just in management, but also marketing, operations, legal issues, and human resources. With this degree, you will be prepared to enter positions in tourism, hotel operations, restaurant management, catering, cruise ship operations, casino operations, managed services and many more.

The **Hospitality Management BAS degree** opens doors for you in rapidly expanding industry sectors such as the growing number of assisted and independent living facilities, destination spas and resorts, corporate hospitality, and event production.

Career Opportunities

The **Hospitality Management BAS degree** at South Seattle College prepares students for management, marketing and human resource positions in all facets of the hospitality industry, including:

- Tourism
- Hotel Operations
- Restaurant Management
- Catering
- Cruise Ship Operations
- Casino Operations
- Event Planning
- Residential Property Management
- Assisted and Independent Living Facilities

The program is unique in its focus on applied management training for underrepresented students in the Puget Sound region.

Postgraduate Opportunities

Completion of the BAS program in Hospitality Management extends postgraduate opportunities as well as career pathways. Graduated students have pursued master's degrees at universities as well as achieved leadership positions within reputable organizations and companies.

Class Times/Delivery Format

All program specific classes (HMG) will be delivered in hybrid mode twice a week in 4.5-hour sessions via online and in-person simultaneously. Students must be able to meet the BAS course delivery schedule unless accommodation has been confirmed with instructor(s) or Access Services. Classes are scheduled consistently each quarter to minimize interference with work schedules. For students who have already earned an associate degree, the Bachelor of Applied Science degree can be completed in two years of full-time attendance. Required upper division courses are offered just once a year, so it will be important to work with your advisor to ensure you are enrolling in the appropriate courses.

Which quarter can I begin?

The BAS Hospitality Management program is cohort-oriented and begins each Fall Quarter. This means that all BAS students will be in the same peer group for the duration of the program. Winter and Spring Quarter admissions are allowed on a case-by-case basis.
