

_____SOUTH SEATTLE COMMUNITY COLLEGE_____

Technical Education Division

COURSE OUTLINE

Revision: Doug Clapper-2012

DEPARTMENT:	Heavy Duty Diesel Technology
CURRICULLUM:	Diesel and Heavy Duty Equipment Technology
COURSE TITLE:	Electrical - Electronics, Basic
COURSE NUMBER:	HDM 102
TYPE OF COURSE:	Vocational Preparatory
COURSE LENGTH:	99 Hours
CREDIT HOURS:	6
LECTURE HOURS:	33
LAB HOURS:	66
CLASS SIZE:	18 maximum
PREREQUISITES:	HDM-101 (Introduction to Heavy Duty) or instructors permission

COURSE DESCRIPTION:

Covers safety procedures when working with electricity as well as fundamental electrical theory. Types of circuits, ohms law, use of common test equipment and reading wiring diagrams are also included in this course.

STUDENT LEARNING OUTCOMES ADDRESSED:

1. Computation - Apply math operations to determine voltage, current flow and resistance in an electrical circuit.
2. Critical Thinking and Problem Solving - Think critically and systematically to locate and repair electrical system failures.

3. Information Literacy - Access technical information and specifications to evaluate electrical system performance.

GENERAL COURSES OBJECTIVES:

At the end of the course the student will:

1. Identify types of electrical circuits
2. Distinguish between direct and alternating current
3. Solve problems using Ohm's Law.
4. Read a wiring diagram
5. Demonstrate proper use of a digital multi-meter.

TOPICAL OUTLINE:

APPROX. HOURS

I. Electrical safety	10
II. Terms and definitions	10
III. Electricity	6
IV. Particles of the atom	6
V. Sources of electricity	6
VI. Conductor	6
VII. Ohm's Law	10
VIII. Types of Circuits	6
IX. Series	8
X. Parallel	10
XI. Series Parallel	6
XII. Electromagnetic induction	7
XIII. AC/DC Current	<u>8</u>
TOTAL	99

Program Outcomes

1. Identify function, read diagrams and manufacturer specifications, inspect, diagnose problems, replace/repair, and service all major components of heavy duty equipment and vehicles. (SLO 1.1 & 7.2)
2. Using IVISDS sheets, OSHA and WISHA standards, demonstrate safety procedures relating to equipment, personal safety, and safety of others. (SLO 6.4)
3. Demonstrate proficiency in using hand and electronic testing and repair equipment. (SLO 6.3)

4. Consistently apply standards and guidelines for safe work procedures. (SLO 6.4 & 6.5)
5. Work independently and in groups to service, complete repairs, test, and maintain heavy duty vehicles to meet industry standards. (SLO 3.1)
6. Use industry tools to measure service. (SLO 2.2)
7. Use technology to test and repair equipment. (SLO 5.1)
8. Identify and strategize own career plans within the field. (SLO 6.2)
9. Practice good customer service. (SLO 3.2)
10. Work with accuracy, dependability, proficiency and speed when servicing equipment. (SLO 6.1)
11. Explain the expectations of employers for employees within the diesel industry. (SLO 7.1)
12. Communicate and document service records. (SLO 1.2)
13. Demonstrate basic competency in use of computers to access repair/replacement data and to document service. (SLO 5.1 & 7.1)

Student Learning Outcomes (SLO)

STUDENT LEARNING OUTCOMES are the knowledge and abilities every student graduating with a certificate or degree from South Seattle Community College will have. Students will achieve these outcomes as well as the specific curriculum outcomes for their academic or technical area of study.

1. Communication

- 1.1 Read and listen actively to learn and communicate.
- 1.2 Speak and write effectively for personal, academic and career purposes.

2. Computation

- 2.1 Use arithmetic and other basic mathematical operations as required by program of study.
- 2.2 Apply quantitative skills for personal, academic, and career purposes.
- 2.3 Identify, interpret and utilize higher level mathematical and cognitive skills (for those students who choose to move beyond the minimum requirements are stated above).

3. Human Relations

- 3.1 Use social interactive skills to work in groups effectively.
- 3.2 Recognize the diversity of cultural influences and values.

4. Critical Thinking and Problem-Solving

4.1 Think critically in evaluating information, solving problems and making decisions.

5. Technology

5.1 Select and use appropriate technological tools for personal, academic and career tasks.

6. Personal Responsibility

6.1 Be motivated and able to continue learning and adapt to change.

6.2 Value one's own skills, abilities, ideas and art.

6.3 Manage personal health and safety.

6.4 Be aware of civic and environmental issues.

7. Information Literacy

7.1 Access and evaluate information from a variety of sources and contexts, including technology.

7.2 Use information to achieve personal, academic, and career goals, as well as to participate in a democratic society.
